Technical Skills

Web Development: HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript, Responsive Design, Bootstrap, Material-UI, Tailwind CSS, Axios, React Router,Promise,Redux,Node-js,Express-js,MongoDB,JWT.
Tools & Version Control: Webpack, Babel, npm, Git, GitHub, Prettier, Vite, Chrome Dev Tools.

Experience

TLR Studios   **Jun 2024 – Oct 2024**
Front-end Developer Intern   *Banglore, India*
- Developed the frontend development of a live project using React and TypeScript, boosting application performance by 25% and scalability by 30%.
- Spearheaded with cross-functional teams to design, develop, and deploy new features, enhancing the overall application functionality while reducing bugs by 20%.
- Devised a TypeScript standard operating procedure that was adopted by developers, ensuring consistent error-free coding practices, reducing code review time by 25% and enhancing team productivity.
- Executed feature updates within tight deadlines, improving user experience by 30% through responsive and interactive interface enhancements

Cyber Flex Pvt. Ltd.   **Dec 2023 - May 2024**
Front-end Developer Intern   *Indore, India*
- Spearheaded the development of a fully responsive image-sharing website using React.js, incorporating advanced features such as image upload, user authentication, and sharing functionalities.
- Collaborated with developers to deliver frontend solutions, enhancing website interactivity and boosting user engagement by 30%.
- Optimized page load times by 25% using efficient React state management and component lifecycle methods.

Projects

Chat-Web-app | *React-js, Node-js, Express-js, Mongo-db*
- Developed an intuitive user interface that enhanced user experience and used JWT for secure Login and route protection .
- Implemented real-time bi-directional communication with Socket.io, Enabling instant message delivery and user online status.

Chat-AI | *React-js, Node-js, Express-js, Mongo-db, Gemini-api*
- Developed an interactive AI chatbot using Google Gemini API for generating human-like responses. Built with MERN stack for full-stack performance and scalability.
- Integrated Cloudinary to handle image uploads and secure media storage from chat sessions. Enabled users to send text prompts as well as images for visual-based queries or suggestions.
- Implemented user-friendly UI with React and Tailwind CSSS, Designed for real time Feedback and smooth user-experience

Gmail Clone | *React-js, Html5, Css3, Firebase*
- Implemented a user-friendly email system with React, improving load times by 30% and reducing errors by 25%.
- Integrated core email functionalities such as send, receive, archive, and delete, improving system efficiency by 20% and user task completion rate by 30%
- Provided a smooth user experience with features like unread email notifications and folder navigation by 10%.

Credentials-Manager Major Project/ *React-js, Html5, Css3, Firebase*
- Build a react-based credentials management system integrated with Firebase, fortifying data protection protocols and diminishing security breaches by 35 percent.
- Engineered password generation, management, and validation features to ensure data integrity, and integrated Firebase's real-time database for seamless data synchronization, improving efficiency by 15%

Education

Vaishnav University   **Year of Passing: 2024**
Bachelor of Technology in Computer Science   *Indore, India*
